

OSHA/MSHA Safety Expert Litigation Support Services

If you are in need of an OSHA/MSHA Safety & Health Expert Witness to assist you with any level of litigation support, look no further. Razer Safety & Health Consulting LLC is owned and operated by Chester R. Razer former MSHA Federal Mine Inspector and OSHA Area Director. Razer holds a Masters Degree in Mining Engineering and is a Certified Safety Professional credentialed by the Board of Certified Safety Professionals (BCSP). As an occupational safety and health- consulting firm, Razer Safety and Health provides high-quality contract services. Razer's experience includes conducting fatality investigations and giving testimony on behalf of OSHA.

While with OSHA Chester Razer completed over 400 field inspections, fatality investigations and accident investigations. Razer trained with and served on OSHA's Nationwide Specialized Response Team and was a first OSHA responder at World Trade and Kittera Disasters.
